CHILD SICKENED BY PRINCE DEVELOPS A TENDENCY TO FEVER.

CANNOT ASK THEM TO TAMELY SUBMIT TO COERCION—RUSSIA'S QUARREL WITH BULGARIA

SAN REMO, Feb. 12.—The German Crown Prince arose this afternoon and sat up several hours. He is exceedingly well and lively.

Dr. Bergmann visited the Crown Prince to-day. Afterward he signed a note to the effect that he was thoroughly satisfied with the treatment and progress of the patient.

BERLIN, Feb. 12.—An evening paper, referring to the Crown Prince's malady, says that the appearances which would necessarily have not in view the disease cancer have not yet been observed. The tracheal tube first used for the purpose was removed for one.

BERLIN, Feb. 12.—Private telegrams from San Remo regarding the condition of the Crown Prince are less reassuring than the official despatches. It is stated that a tendency to fever has been observed.

Feb. 12.—Dr. Schroetter does not think that Dr. Bergmann was summoned to San Remo to operate on the infirm, an operation which he considers a very questionable if there has been any unfavorable change. He thinks it is better to allow the patient to remain as he is, and that the operation may be postponed for a period of a few days, but then the condition of the patient is so critical, in a sense, and the slightest adverse circumstance would have a very bad effect.
